

Acid Resistant Asbestos Rubber Sheet**GS2400 Acid resistant asbestos rubber sheet**

Our acid resistant asbestos rubber sheet is made of selected asbestos fiber with acid-resisting synthetic rubber through compression heating and compression molding.

Applications:

Mainly used for the equipments in acid, and used as sealing gaskets for the flange of pipeline joints.

Specifications:

Style		GS2430
Density		1.8±0.2g/cm ³
Tensile strength		≥12Mpa
Compressibility		12±5%
Recovery		≥40%
Stress relaxation		≤50%
Weight increasing	96.17%(H ₂ SO ₄) =18mol/L*48h	≤30%
	36.97%(HCL)=12mol/L*48h	≤25%
	10% (HNO ₃)= 1.67mol/L*48h	≤20%
Maximum temperature		300°C
Maximum pressure		3.0Mpa

Normal Dimensions:

1270 x 1270mm; 3810 x 1270mm; 1000 x 1500mm; 2000 x 1500mm; 4000 x 1500mm;

Thickness: 0.4~5.0mm.

Other dimensions are also available on request.
